

Patty Stacker

When round patties go out of the freezer, the gohant patty stacker takes them from the freezer belt and automatically stacks them in order for operators to pack them into box. The stacker is made in stainless steel and food-grade materials, reliable and easy to operate. The take-away conveyor vibrates in order to spread the patties from the freezer.

Product Display

Features and benefits

- 1.Stacks a wide variety of patty diameters and thicknesses
- 2.Stacks patties interleaved with paper easily
- 3.Designed to accommodate the fastest formers
- 4.Variable speed drive to match former speed
- 5.Quickly removable troughs and augers for patty changeovers
- 6.Patty by-pass system for metal detector rejection
- 7.Easy to clean, easy to operate

Product Applications

- 1.Raw or cooked frozen patties
- 2.Pancakes
- 3.Waffles
- 4.Pork chops
- 5.Vegetarian patties
- 6.Cookies
- 7.Hash brown patties

Product Specifications

- 1.Material: SS304 and food grade materials
- 2.Electrical motor: 380V, 50Hz, 0.37KW*2 (others are upon request)
- 3.Patty dimensions $\phi 60 - 120$, thickness 5 - 15 mm
- 4.Line speed: 600 pcs./min.

Type	Guide Plate Width / mm	Trough Width / mm	Spiral Outer Width / mm	Spiral Inner Width / mm	Spiral Pitch mm	Patty Diameter mm	Patty Thickness mm
HDB110	145	130	$\phi 130$	$\phi 90$	50	$\Phi 100-120$	≤ 18
