## Double Chamber Vacuum Packaging Machine

GoHunt **Double Chamber Vacuum Packaging Machine** features a double chamber design for efficient and time-saving packaging. This double chamber vacuum sealer is equipped with a swing lid, allowing for continuous operation by loading the second chamber while the first one is in use so that the packaging speed is twice that of a single chamber vacuum sealer. The double chamber sealing machine is versatile and built for durability, making it suitable for packaging a wide range of goods.

## Product Display

### Key Features and Benefits

1. **Dual-Chamber Craft:** Two chambers with a swing lid for uninterrupted packaging cycles.
2. **Time-Saving Efficiency:** Load the second chamber while the first one is in operation.
3. **Versatile Packaging:** Suitable for packing various goods with reliability.

### Options

1. **Gas Flush System:** Inflatable with gas for extended product freshness.
2. **Customizable Chamber Size:** PLC control allows customization of chamber dimensions.
3. **Vacuum Pump Options:** Choose from vacuum pump types 20/63/100/160/200 for tailored performance.
4. **Variety of Vacuum Pumps:** Different types of vacuum pumps available for specific needs.

## Product Specifications

1. **Power:** 380 V / 220 V, 50 Hz.
2. **Chamber Size:** Varied dimensions (580 – 966 x 535 / 625 x 100 mm) depending on machine type.
3. **Effective Sealing Length:** Varied lengths (400 – 800 x 8 (10) / 2 mm) depending on machine type.
4. **Capacity:** 120 – 300 cycles/hour.
5. **Dimensions:** Varied sizes (1114 – 1890 x 590 x 850 mm) depending on machine type.
6. **Weight:** Varied weights (170 – 330 KG) depending on machine type.
